Share the Spark: Advancing the Development of New and Early-Career Faculty in the CAE Community

Paige Zaleppa Flores - Towson University

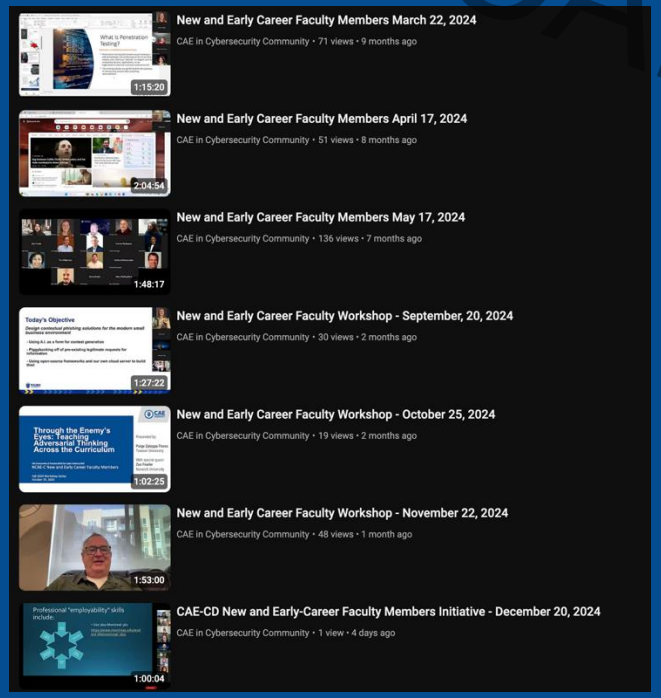
Gretchen Bliss – University of Colorado Colorado Springs

Goals

- To engage with new and early-career faculty members at CAE institutions to foster their engagement with the broader CAE Community
- We aim to connect them with curricular resources, career development opportunities, and initiatives in the CAE Community

2025 CAE Community Symposium

Previous Activities



- For the last year we have hosted workshops aimed at providing new and early-career faculty members with resources and techniques to teach cybersecurity topics.
  - Topics:
    - Linux
    - Networking
    - Introduction to Cybersecurity
    - Extracurriculars
    - Adversarial Thinking
    - Generative AI
    - Business Continuity and Risk Management
    - Digital Forensics
    - Penetration Testing
- Have consistently received feedback on how these workshops have provided valuable tools and more importantly explanations of how these tools can be used to help them teach various topics
- All workshops are recorded and posted on the CAE Community YouTube page, and we have 650+ views.

2025 CAE Community Symposium

How many of your institutions have educators with less than 5 years of teaching experience?

We want to connect!

2025 CAE Community Symposium

What topics/activities do you think would benefit New and Early Career Faculty?
